Mirror, Mirror...

“Mirror, Mirror...” is student oriented, interactive, and stimulating. It looks to question the place and importance given to body image nowadays

The project started in January 2015, and in February 2015 developed on a collaborative web space. After it ended in June 2015, evaluations were given in October-giving the project a lifespan of 10 months.

Claudine Coatanéa (France), Patrizia Roma (Italy), and Iwona Jodlowska (Poland) met by chance on a eTwinning Forum, and stayed in the project by choice.

“ Fight low body confidence! be-YOU-tiful - STOP THE BEAUTY MADNESS! You are good enough! You are not only what you look like! Looks aren't everything! "What matters most is how you see yourself" You're so much more than a made-up face. BE AT EASE WITH THE WAY YOU LOOK -Quotes from the project ”
